

LED Holder mount 3mm four hole leds through hole type

LED light emitting diode spacing column 3MM edgeless double hole lamp holder F3 two hole plastic lamp holder 90 ° with lamp. This is a product of four 3mm LEDs with a four-hole kit. It is generally selected as an endless mist (colored mist or white mist) LED, the color of the four LEDs can be arbitrarily selected according to the requirements. The size of the kit will provide us with regular, if not required, customization. General LED is bent 90 degrees.

Zhiding Electronics launches new automatic production LED lamp beads with lamp holders, widely used in toys, gifts, electronic and electrical products. Automatic production of LED devices with lamp holders, and has a fully enclosed anti-static dust-free workshop. LED lamp beads have single hole single lamp, single hole double color, double hole double lamp (color can be made into a single color or 2 colors), 3 holes 3 lights (color can be made into a single color, double color or three colors can be), four holes 4 lights (color can be made into a single color, two-color, three-color, or four colors) can be customized with customers!

Advantages: It is used to protect the LED standing on the PC board, so that the height is consistent, the middle partition design is to confirm: the PIN will not bend, cut off, and short circuit.

Part Number: AL-L132XXX-L0H405-C3.5

Material: nylon 66

Flame class: 94V-2

Color:

Red (630-650nm), 20-80mcd

Yellow (585-595nm), 20-80mcd

Green (565-575nm), 20-80mcd

Blue (465-475nm), 20-80mcd

Current: 15-18 mA

Packing: 500 pcs/bag

Welcome to receive your inquiry, we will service you the best!
